

ELECTRICAL AND COMPUTER ENGINEERING

UIC Open House Fall 2023

Today's agenda

- **UIC introductions**
- **ECE at UIC with Drs Tuninetti**
(department head), **Revelo** (senior design coordinator)
and Kosmach (director of undergraduate studies)
- **Q&A**

Electrical and
Computer
Engineering at UIC

Academics

Majors

- Electrical Engineering (EE)
- Computer Engineering (CE)
- Engineering Physics (EP)

Academics

Credit breakdown (all majors):

- General education and English = 21 credit hours
- Foundation of math and science = 32 credit hours
- Core ECE courses = 58 credit hours
- Technical electives = 17 credit hours
- **Total = 128 credit hours**

Can be completed in 8 terms, with an average of 16 credit hours per term.

Many minors to choose from!

Who is UIC ECE?

Students in Fall 2023

- 526 computer engineering majors
- 313 electrical engineering majors
- 16 engineering physics majors
- 200 graduate students (MS, PhD)

Who is UIC ECE?

Faculty

- 40 faculty members, including 34 tenured and tenure-track faculty and 6 additional teaching faculty
- Very seldom employ adjuncts

Real-world projects

Inclusive
excellence

State of the art
research facilities

We are a one-of-a-kind place to learn

Diverse student population <https://diversity.uic.edu/data/>

- There is no majority student racial or ethnic group at UIC

Diverse faculty <https://ece.uic.edu/faculty-and-staff/>

- More than one-third women; all faculty have wide-ranging involvement with research and teaching

Guaranteed Paid Internship Program <https://ecc.uic.edu/students/freshman-internship-program/>

- Guaranteed compensated internships for students who meet program requirements (minimum GPA, participate in Freshman Engineering Success Program, etc.)

Chicago!

- Internships, networking, alumni community of more than 15,000 graduates

Award-winning research faculty

Including:

- 2 (+ 2 emeritus) UIC Distinguished Professors
- 12 NSF (National Science Foundation) CAREER Award recipients
- 13 IEEE (Institute of Electrical and Electronics Engineer) Fellows
- Editors and associate editors of leading technical journals
- Fellows of other professional organizations including APS, AIMBE, AAAS, SPIE, URS

GPIP

In our Guaranteed Paid Internship Program (GPIP), you may work on:

- Robotics* [*visit our labs today at 10:30am and 1:30pm]
- Nanoscale structures and fabrication*
- Machine learning and Deep learning
- Quantum information science
- Smartphone communication technologies and 6G wireless
- Renewable energy and smart grids
- Power electronics and switching technology
- Fault-tolerant computing
- Hardware verification and validation
- Video tracking and analysis, including environmental and health monitoring
- Internet of things

Career Success

Did you know?

- More than 400 employers have hired UIC engineering and computer science graduates in the last few years
- We have a dedicated career center in the college of engineering
- More than 180 companies came to our fall career fair this past week
- Almost half (90+!!) of these companies are looking for CE majors, and more than one-third (60+!!) are seeking EE majors

Starting salaries

According to UIC's Engineering Career Center, the most recent survey of graduates showed:

- **ECE majors:** report starting salaries of \$60,000 to \$75,000
- EE majors: reported highest salary range at \$75,000 to \$100,000
- CE majors: reported their highest salary range at \$110,000

**ECE in your
everyday life – we
connect you to
anyone anywhere**

**ECE in your
everyday life – we
empower doctors
with sophisticated
diagnostics
equipment**

**ECE in your
everyday life – we
pave the way for
green sustainable
life on our planet**

ECE in your everyday life – Biden recently signs \$280 billion CHIPS Act.

\$50 billion federal investment in domestic chip plants would create 185,000 temporary American jobs and add nearly \$25 billion to the U.S. economy each year until 2026 as new fabs are built.

5 WAYS YOU USE QUANTUM TECHNOLOGY EVERY DAY

COMPUTERS

LIGHT EMITTING DIODES

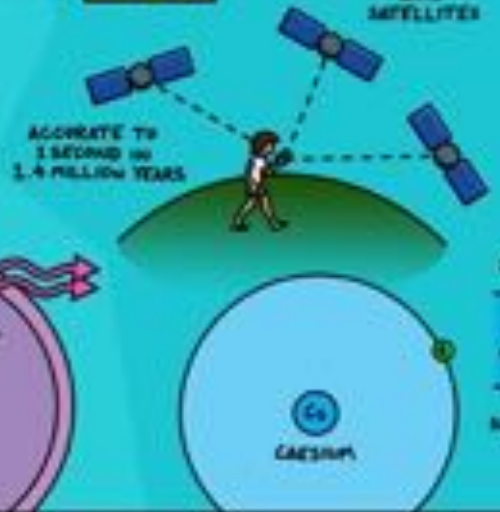

PHOTODETECTORS

LASERS

G.P.S

OTHER QUANTUM TECH

ECE in your everyday life – quantum technology

Computer Engineering

- 128 credit hours
- Degree requirements can be completed in 8 terms, with an average of 16 credit hours per term
- Choose from a range of minors including computer science

Electrical Engineering

- 128 credit hours
- Degree requirements can be completed in 8 terms ,with an average of 16 credit hours per term
- Choose from a range of minors

Engineering Physics

- 128 credit hours
- Degree requirements can be completed in 8 terms ,with an average of 16 credit hours per term
- Choose from a range of minors

Undergraduate student resources

- Academic advising <https://engineering.uic.edu/undergraduate/advising/>
- Undergraduate student research <https://engineering.uic.edu/coe-research/>
- Diversity programming, including support to help students from underrepresented populations to succeed <https://engineeringequity.uic.edu>
- Engineering Career Center <https://ecc.uic.edu>
- Innovation Center (classes piloted by companies) <https://innovationcenter.uic.edu>
- MakerSpace <https://makerspace.uic.edu>
- Women in Engineering Programs <https://wiep.uic.edu>
- 32 student organizations <https://engineering.uic.edu/undergraduate/student-groups/>

Student organizations

The college has 32 student organizations. Some are of particular interest to EE, CE, and EP majors: organizations <https://engineering.uic.edu/undergraduate/student-groups/>

- Institute of Electrical and Electronics Engineers (IEEE)
- Engineering World Health
- Eta Kappa Nu honor society
- American Institute of Aeronautics and Astronautics
- Society of Automotive Engineers (UIC Motorsports)
- Vehicle Electronics and Systems Engineering
- Engineers Without Borders

Preparing for internships and jobs

Engineering EXPO for senior design projects Judged by faculty, industry, professionals, and UIC alumni

Research 1 institution opportunities Study and investigate alongside some of the best faculty researchers in the nation

Work experience here in Chicago Internships, co-op opportunities, part-time jobs

Prepare for graduate school Curriculum and advising to improve your chance of admission to top programs

We hope that
you will join us!

Electrical and computer engineering

Questions are welcome!

A large, illuminated red oval sign with the white letters "UIC" mounted on a building's exterior wall. The background shows a city skyline at night.

UIC

The logo for UIC Engineering, featuring the letters "UIC" inside a white circle, followed by the word "ENGINEERING" in a bold, white, sans-serif font.
